

Website Content

Draft copy for scikit.com.au · for review by Ali & Hassan · 28 September 2026

Headline

Get Found. Work Smarter. Stay Secure.

Scikit builds fast, secure websites that get found on Google, custom software that fits how you work, and the cloud systems that keep it all running, for Australian small businesses.

How to read this document

- Each section is one page of the website, in menu order. The grey box at the top shows the Google title, meta description and URL.
- Headings in green capitals (e.g. HERO, OFFER) are section labels for the designer. They don't appear on the site.
- **Button:** lines are call-to-action buttons. Yellow boxes are internal notes, not published.
- Red [PLACEHOLDERS] still need real details: ABN, phone, email, address, postcode, LinkedIn, dates.
- **Prices here are the current draft.** The separate *Scikit Pricing Research* PDF recommends launch prices (e.g. Starter website \$2,990 instead of \$3,500). Agree on prices first, then we update the copy.

TRUST STRIP

Built by engineers certified in

AWS Solutions Architect · AWS Security Specialty · Microsoft · Cisco CCNA · VMware

Note: Replace with a client logo strip ("Trusted by businesses across Australia") once you have 4+ clients who agree to be listed.

OFFER

Free Website & SEO Audit

Send us your website and we'll show you exactly why it isn't bringing in more work. You get a short video walkthrough and a one-page report within 3 business days.

- Speed and mobile check (Google Core Web Vitals)
- Where you rank for your top 5 search terms, and who's beating you
- Google Business Profile review
- Security and backup check
- The three things we'd fix first. No obligation.

Button: Get my free audit

Note: Alternative offer in Enable's "try before you commit" style (only use it if you're happy to do the work up front):
"Try before you commit: we'll design your homepage before you sign. If it's not what you expected, you walk away."
Don't add "only X spots left" unless it's true. Fake scarcity can breach Australian consumer law.

SERVICES

Web Design

WHY SCIKIT

Why Scikit? Built by engineers.

Most small business websites and systems are put together from templates and handed over. Ours are designed and built by senior engineers who've designed systems for AWS and some of Victoria's largest organisations. That's why they're fast and secure, and they keep ranking.

Web design and development is led by **Ali Lishan**, a Chief Software Architect with 20+ years building web and mobile applications.

Hosting and security are led by **Hassan Sheikh**, a former AWS Solutions Architect and AWS Security Specialty certified, with 20 years in infrastructure.

- ✓ Senior engineers only
 - ✓ Fixed-price quotes in AUD
 - ✓ You own your site, domain and accounts
 - ✓ In-person meetings in Melbourne
-

FAQ

How long does a website take to build?

A standard small business website is usually live 3 weeks after we receive your content. Online stores and larger sites take 4–8 weeks.

How much does a website cost in Australia?

Our websites start from \$3,500 + GST for a small business site. Sites with bookings or integrations start from \$7,500, and online stores from \$12,000. Every site includes SEO setup, mobile optimisation, secure hosting setup and backups.

How much does SEO cost?

Our monthly SEO plans start from \$790 + GST, and a one-off local SEO setup starts from \$1,500 + GST. Most small businesses start seeing movement in 3–6 months.

Do you guarantee first-page Google rankings?

No. No honest agency can guarantee rankings, because Google weighs hundreds of factors. We follow every proven best practice and report your rankings and enquiries every month, so you can see exactly what you're getting.

What is SEO and why does my business need it?

SEO (search engine optimisation) is how you get your website to appear when people search for what you do. It covers Google and, increasingly, AI tools like ChatGPT. When someone in your area searches for your service, SEO decides whether they find you or a competitor.

Do you only do websites?

No. We build websites and run SEO, and we also design, build and deploy custom software and cloud solutions, then maintain everything we build. One team, from your first website to the systems your business runs on.

04 Web Design

SEO title: Web Design Melbourne | Small Business Websites | Scikit

Meta description: Fast, mobile-first websites for Australian small businesses, built by senior engineers. SEO setup, secure hosting and backups included. From \$3,500 + GST.

URL: scikit.com.au/services/websites

WEB DESIGN FOR SMALL BUSINESS IN MELBOURNE

Fast, mobile-first websites that load instantly, rank on Google and turn visitors into enquiries and bookings. Built by engineers, not dragged together from a template.

Button: Start a project

Button (secondary): Get a free audit of your current site

Every website includes

- Mobile-first design
 - Page speed optimised (green Core Web Vitals)
 - SEO setup: titles, schema, sitemap, Google Search Console
 - Google Business Profile and analytics setup
 - Contact and enquiry forms that land in your inbox
 - Secure hosting setup, SSL and daily backups
 - Easy editing, so you can change text and photos yourself
 - Everything in your name: domain, hosting, code
-

Packages

Starter: from \$3,500 + GST

Up to 5 pages. Ideal for new businesses and sole traders. Live in about 3 weeks.

Growth: from \$7,500 + GST (*most popular*)

Up to 12 pages, custom design, online bookings or quote requests, blog, copywriting help. Live in 4–6 weeks.

Commerce: from \$12,000 + GST

Online store with payments, shipping, GST and Xero/MYOB. Live in 6–8 weeks.

Button: See full pricing

Already have a website?

We can speed it up, fix it or rebuild it, including sites where the original developer has gone quiet. First, we'll get your logins back into your name.

Want to rank higher?

Every site comes with SEO foundations. To climb the rankings, add a monthly [SEO plan](#).

FAQ

How long does it take?

About 3 weeks for a Starter site once we have your content. Bigger sites take 4–8 weeks.

Do I need to write the content?

Just send us the key facts. We'll write and polish the copy.

Will I own it?

Yes. The domain, hosting and code are all in your name.

CTA: Get a fixed-price website quote within 2 business days. **Button:** Start a project

SEO title: SEO for Small Business in Melbourne | Local SEO & AI Search | Scikit

Meta description: SEO for Australian small businesses. Technical SEO, local SEO, Google Business Profile and content that ranks on Google and gets recommended by AI search. Monthly reporting, no lock-in.

URL: scikit.com.au/services/seo

SEO THAT BRINGS IN CUSTOMERS, NOT JUST TRAFFIC

Rank on Google for the searches that matter to your business, and show up when customers ask ChatGPT, Google AI or Perplexity for a recommendation.

Button: Get my free SEO audit

What we do

Technical SEO

Speed, mobile performance, site structure, structured data (schema), indexing and fixing crawl errors. We're engineers, so this is where we're strongest.

Local SEO

Google Business Profile optimisation, local citations and directories, service-area pages and a review strategy, so you show up in the map results for your area.

Content

Service pages and guides that answer what your customers actually search for, written in plain Australian English.

AI search (GEO)

Search is moving into AI answers. We structure your site and your online presence so AI tools like ChatGPT, Google AI Overviews and Perplexity can understand, cite and recommend your business.

Reporting

A plain-English monthly report: rankings, traffic, calls and enquiries, and what we're doing next.

Plans

Monthly, ex GST. Minimum 3 months, then month-to-month.

Local — \$790 / month

For businesses serving one area.

- Google Business Profile management
- Technical SEO fixes and monitoring
- Up to 10 target keywords
- 1 new page or article per month
- Monthly report

Growth — \$1,490 / month (*most popular*)

For businesses competing across a city or region.

- Everything in Local
- Up to 25 target keywords
- 2 new pages or articles per month
- Directory and citation building
- AI search visibility tracking
- Monthly 30-minute review call

One-off: Local SEO Setup — from \$1,500

Google Business Profile, citations, schema, on-page fixes and Search Console setup. Ideal with a new website.

FAQs

How long until I see results?

Usually 3–6 months for meaningful movement, faster for less competitive local terms. Technical fixes and Google Business Profile work can show results within weeks.

Do you guarantee rankings?

No, and be wary of anyone who does. We guarantee the work, the transparency and the reporting.

Do I need a new website for SEO?

Not always. We'll audit your current site first. If it's slow or badly built, fixing that is usually the best SEO investment you can make.

Who owns the content?

You do. Everything we write and every account we set up is yours.

CTA: Find out where you rank today. **Button:** Get my free SEO audit

06 Custom Software

SEO title: Custom Software & Web Apps Melbourne | Scikit

Meta description: Custom booking systems, customer portals, internal tools and integrations for Australian small businesses. Built by a Chief Software Architect with 20+ years' experience.

URL: scikit.com.au/services/custom-software

CUSTOM SOFTWARE & WEB APPS

Replace spreadsheets and double-handling with software built around how your business actually works. Led by a Chief Software Architect with 20+ years building web and mobile applications.

Button: Discuss your idea

What we build

- **Booking, quoting and job systems:** quote → approve → schedule → invoice
- **Customer portals:** customers check jobs, invoices and documents themselves
- **Internal tools and dashboards:** your key numbers on one screen
- **Integrations:** connect Xero, MYOB, Shopify, HubSpot, Microsoft 365 and more
- **MVPs for start-ups:** the smallest version worth launching

How we build

- Proven technology: React, Node.js, TypeScript, Python, PostgreSQL
- Hosted on AWS or Azure, with Australian data centres available
- Weekly demos on a live preview link
- Source code and accounts in your name

Pricing

Integrations from **\$2,500**. Internal tools from **\$10,000**. Portals and booking systems usually **\$15,000–\$60,000**. All ex GST, fixed quote before we start.

CTA: Tell us what's slowing your team down. **Button:** Book a free chat

07 Hosting & Care

SEO title: Website Hosting & Care Plans Melbourne | Scikit

Meta description: Secure website hosting, daily backups, updates, monitoring and monthly changes for Australian small businesses. Looked after by a former AWS Solutions Architect. From \$99/month.

URL: scikit.com.au/services/hosting-care

HOSTING & CARE

Secure hosting, daily backups, updates and monitoring for your website, looked after by a former AWS Solutions Architect. You run your business; we keep your site fast, safe and online.

Button: Choose a plan

Plans

Monthly, ex GST. No lock-in. Cancel with 30 days' notice.

Essentials: \$99 / month

- Fast, secure hosting
- Updates, SSL and uptime monitoring
- Daily backups, kept for 30 days
- 30 minutes of changes per month
- Email support, next business day

Business: \$249 / month *(most popular)*

- Everything in Essentials
- Security monitoring and malware scanning
- Monthly speed and SEO health report
- 2 hours of changes per month
- Same-business-day support

Complete: \$599 / month

- Everything in Business
- Microsoft 365 / Google Workspace admin
- Quarterly security check (Essential Eight)
- 5 hours of changes or support per month
- Phone support, 4-business-hour response

Note: Competitor check: budget studios offer care plans from ~\$33/month. Consider adding a \$39–49 "Hosting only" tier. See research/competitors.md.

Site built by someone else?

We take over existing websites. We start with a **takeover audit (from \$450 + GST)**: we get your logins back into your name, check security and backups, and document what's there.

FAQ

What happens to unused hours?

They roll over for one month.

What if I need more work?

Extra work is \$150/hour + GST, or a fixed quote for bigger jobs.

Can I leave?

Anytime, with 30 days' notice. Everything is already in your name.

CTA: Want someone reliable looking after your website? **Button:** Choose a plan

08 Mobile Apps

SEO title: Mobile App Development Melbourne | iOS & Android | Scikit

Meta description: iOS and Android apps for Australian small businesses and start-ups, built from one codebase to keep costs down. From \$20,000 + GST.

URL: scikit.com.au/services/mobile-apps

MOBILE APPS

iOS and Android apps built from one codebase, so you pay for one app, not two.

Button: Discuss your app

What we build

- **Customer apps:** bookings, loyalty, ordering, push notifications
- **Staff apps:** job sheets, photos, signatures, checklists, even offline
- **Start-up MVPs:** test your idea with real users, fast

Included

- Design, development and back end
- App Store and Google Play submission
- Analytics and crash reporting
- Code and developer accounts in your name

Do you need an app?

Sometimes a fast mobile website does the job for a fraction of the cost. We'll tell you honestly.

Pricing

From **\$20,000 + GST**. Most small business apps cost \$25,000–\$70,000.

CTA: Have an app idea? **Button:** Book a free chat

09 Cloud & Microsoft 365

SEO title: Microsoft 365 & Cloud Setup for Small Business Melbourne | Scikit

Meta description: Microsoft 365, Google Workspace, backups and AWS/Azure cloud set up properly for Australian small businesses, by a former AWS Solutions Architect.

URL: scikit.com.au/services/cloud-and-it

CLOUD & MICROSOFT 365

Email, files, backups and cloud hosting set up properly, by a former AWS Solutions Architect with 20 years in infrastructure.

Button: Book a free chat

What we do

- **Microsoft 365 & Google Workspace:** setup, migrations, Teams, SharePoint, shared mailboxes
- **Email security:** SPF, DKIM and DMARC to stop people spoofing your domain
- **Backups:** automated, tested and recoverable
- **Devices:** laptops and phones managed centrally, with MFA everywhere
- **AWS & Azure:** migrations, hosting and infrastructure as code
- **Cloud cost reviews:** find out what you're paying for and don't need

Pricing

Microsoft 365 setup or migration from **\$1,500**. Cloud cost review from **\$1,200**. All ex GST.

CTA: Want your IT set up properly? **Button:** Book a free chat

10 Cyber Security

SEO title: Cyber Security for Small Business | Essential Eight | Scikit

Meta description: Essential Eight-aligned cyber security for Australian small businesses. Security reviews, MFA, backups, email protection and staff training from an AWS Security Specialty certified architect.

URL: scikit.com.au/services/cyber-security

CYBER SECURITY

Practical protection for small businesses, based on the Australian Government's Essential Eight. Led by an AWS Certified Security Specialist.

Button: Book a security review

What we do

- **Security review:** we check your setup against the Essential Eight and give you a ranked list of fixes
- **Fix it:** MFA, backups, patching, admin access clean-up and a password manager
- **Email protection:** stop fake invoices and domain spoofing
- **Staff training:** how to spot phishing and payment scams
- **Incident help:** email hacked? Call us. We'll help you contain it and recover.

The Essential Eight

Patch applications · Patch operating systems · Multi-factor authentication · Restrict admin privileges · Application control · Restrict Office macros · User application hardening · Regular backups

Pricing

Security review from **\$1,800**. Staff training from **\$600**. All ex GST.

CTA: Find out how exposed you are. **Button:** Book a security review

11 AI & Automation

SEO title: AI & Automation for Small Business Australia | Scikit

Meta description: AI chatbots trained on your own content, automated admin and app integrations for Australian small businesses, with privacy guardrails built in.

URL: scikit.com.au/services/ai-automation

AI & AUTOMATION

Put AI to work on the repetitive jobs, safely, with your data kept private.

Button: Book a free chat

What we build

- **Website AI assistant:** answers customer questions 24/7 using your own content
- **Paperwork automation:** pulls details from emails, PDFs and forms into Xero or your CRM
- **Quote and report drafting:** from your notes, in your format, ready for a human to check
- **App integrations:** when something happens in one tool, the next steps happen automatically

Kept safe

- Your data isn't used to train public AI models
- Guardrails keep the AI on-topic and accurate
- A human approves anything sent to customers
- Australian hosting available

Pricing

Automation from **\$2,500**. Website AI assistant from **\$4,500**, plus small monthly running costs. All ex GST.

CTA: Which task does your team dread most? **Button:** Book a free chat

12 Pricing

13 Process

SEO title: Our Process | Web Design & SEO | Scikit

Meta description: How Scikit builds websites and runs SEO for Australian small businesses. Audit, plan, build, launch and grow, with fixed prices and weekly updates.

URL: scikit.com.au/process

OUR PROCESS

Four steps from first chat to a website that brings in work. Fixed prices, weekly updates, no surprises.

01. Audit

We review your current website, your competitors and what your customers search for on Google. You get a free audit with the three things we'd fix first.

You get: a video walkthrough and a one-page report.

02. Plan

We send a fixed-price proposal in plain English: a sitemap, the keywords we'll target, the timeline and the cost.

You get: a clear scope and price before any work starts.

03. Build

We design and develop your site with speed, SEO and security built in. You get a preview link and a weekly update, so you can see progress and give feedback early.

You get: a site you've seen and approved at every step.

04. Launch & Grow

We go live, submit your site to Google, set up analytics and hand over every login in your name. With an SEO or care plan, we keep improving your rankings and send a monthly report.

You get: a live site, full ownership, and results you can track.

Our promises

- **Fixed prices.** If we underestimate, that's on us.
 - **You own everything.** Domain, hosting, code and content.
 - **Straight answers.** If you don't need something, we'll say so.
 - **Fast replies.** Within one business day.
-

CTA: Start with step 01. **Button:** Get my free audit

SEO title: FAQ | Web Design & SEO | Scikit

Meta description: Answers about website costs, timelines, SEO, hosting, ownership and working with Scikit, a web design and SEO agency in Melbourne.

URL: scikit.com.au/faq

FREQUENTLY ASKED QUESTIONS

Websites

How much does a website cost in Australia?

Our websites start from \$3,500 + GST for a small business site. Sites with bookings or integrations start from \$7,500, and online stores from \$12,000. Every site includes SEO setup, mobile optimisation, secure hosting setup and backups.

How long does a website take to build?

A Starter site is usually live 3 weeks after we receive your content. Larger sites and online stores take 4–8 weeks.

Do I need to write the content?

No. Send us the key facts about your business and we'll write and polish the copy.

Can I update the website myself?

Yes. You can edit text, photos and blog posts without a developer.

Will I own my website?

Yes. The domain, hosting account, code and content are all in your name.

SEO

What is SEO and why does my business need it?

SEO (search engine optimisation) is how you get your website to appear when people search for what you do, on Google and, increasingly, in AI tools like ChatGPT. It decides whether customers find you or a competitor.

How much does SEO cost?

Monthly plans start from \$790 + GST. A one-off local SEO setup starts from \$1,500 + GST.

How long until I see results?

Usually 3–6 months for meaningful movement. Google Business Profile and technical fixes can show results within weeks.

Do you guarantee first-page Google rankings?

No. No honest agency can guarantee rankings, because Google weighs hundreds of factors. We follow every proven best practice and report your rankings and enquiries every month.

What is AI search (GEO)?

More people now ask ChatGPT, Google AI or Perplexity for recommendations instead of scrolling search results. GEO (generative engine optimisation) makes sure those tools can find, understand and recommend your business.

Hosting & Support

Do you host websites?

Yes. Our Hosting & Care plans start from \$99/month and include secure hosting, daily backups, updates and monthly changes.

Can you take over a website someone else built?

Yes. We start with a takeover audit to get your logins back and check your site is secure.

Working with us

Where are you based?

Melbourne. We meet clients in person around Melbourne and work with businesses across Australia remotely.

Do you only do websites and SEO?

They're our focus. The same team also builds custom software and apps, and sets up Microsoft 365, cloud and cyber security, so you don't need another provider as you grow.

Are your prices ex GST?

Yes. All prices are in AUD and exclude GST.

16 Privacy policy (draft)

SEO title: Privacy Policy | Scikit

Meta description: How Scikit collects, uses, stores and protects personal information in line with the Privacy Act 1988 (Cth) and the Australian Privacy Principles.

URL: scikit.com.au/privacy

Draft — have this reviewed before publishing. This is a sensible starting point, not legal advice.

PRIVACY POLICY

Last updated: **[DATE]**

Scikit (ABN **[ABN]**) ("we", "us", "our") respects your privacy. This policy explains how we handle personal information in line with the *Privacy Act 1988* (Cth) and the Australian Privacy Principles (APPs).

1. What we collect

We may collect:

- **Contact details** — name, business name, email, phone number, address
- **Enquiry details** — information you provide about your business and project
- **Billing details** — invoicing information (card payments are processed by our payment provider; we don't store card numbers)
- **Website usage data** — pages visited, device and browser type, approximate location and referral source, collected via cookies and analytics tools
- **Client system data** — when we build or support your systems, we may have access to data held in them. We handle it only to deliver our services and under your instructions.

2. How we collect it

Directly from you (forms, email, phone, meetings), through our website (cookies and analytics), and from your systems when you engage us to work on them.

3. Why we collect it

To respond to enquiries, provide and support our services, send invoices, improve our website, meet legal obligations, and — only with your consent — send occasional updates. You can unsubscribe at any time.

4. Disclosure

We don't sell personal information. We may share it with trusted service providers who help us run our business (for example hosting, email, accounting, payment and analytics providers), with professional advisers, or where required by law.

5. Overseas disclosure

Some of our service providers may store data outside Australia (for example in the United States or the European Union). Where this happens, we take reasonable steps to ensure the information is handled consistently with the APPs.

6. Security

We protect personal information with measures including encryption, multi-factor authentication, access controls and regular backups. If a data breach is likely to cause serious harm, we will notify affected individuals and the Office of the Australian Information Commissioner (OAIC) as required by the Notifiable Data Breaches scheme.

7. Cookies

Our website uses cookies for basic functionality and analytics. You can disable cookies in your browser, though some features may not work properly.

8. Access and correction

You can ask to access or correct the personal information we hold about you by contacting us. We'll respond within a reasonable time, usually 30 days.

9. Complaints

If you have a privacy concern, contact us first at **[EMAIL]**. If you're not satisfied with our response, you can contact the OAIC at **oaic.gov.au** or on 1300 363 992.

17 Website terms (draft)

SEO title: Website Terms of Use | Scikit

Meta description: Terms of use for the Scikit website.

URL: scikit.com.au/terms

Draft — have this reviewed before publishing. These cover use of the website only. Client projects should be covered by a separate services agreement.

WEBSITE TERMS OF USE

Last updated: **[DATE]**

These terms apply to your use of scikit.com.au, operated by Scikit (ABN **[ABN]**). By using the site, you agree to them.

Information on this site

Content on this website is general information only, not professional advice for your specific situation. Prices shown are indicative starting prices in Australian dollars, exclude GST unless stated, and may change. A binding price is only provided in a written quote.

Intellectual property

All content on this site — text, graphics, logos and code — belongs to Scikit or its licensors. You may view and share it for personal or internal business use, but may not reproduce it commercially without our written permission.

Links to other sites

We may link to third-party websites. We're not responsible for their content or privacy practices.

Liability

To the extent permitted by law, we're not liable for any loss arising from use of this website. Nothing in these terms excludes rights you have under the Australian Consumer Law that cannot be excluded.

Governing law

These terms are governed by the laws of Victoria, Australia, and you submit to the non-exclusive jurisdiction of its courts.
